

### **Lower Presidio Park Rec. Trail Connection & Bridge**

The City of Monterey's Neighborhood Improvement Program has funded a construction project in the Old Town neighborhood named Lower Presidio Park Rec. Trail Connection & Bridge. The City's contractor, (Chapin and Sommerville) will begin construction on September 18, 2006 and anticipates completion by October 13 and November 3, 2006 for the pedestrian bridge installation and pathway installation, respectively.

The work in general includes: clearing and grubbing, installation of asphalt concrete paths, and construction and installation of bridge abutments and a new pedestrian bridge at Lower Presidio Historic Park. This project will improve public access to the Lower Presidio and provide a safer pathway connecting the downtown area, lower Presidio and Cannery Row area.

Some traffic delays, intermittent road closure and noise should be expected during construction. For project scheduling and updated information, please visit the Construction Updates page on the City of Monterey's website at [www.monterey.org/construction](http://www.monterey.org/construction).

We appreciate your cooperation and patience during the construction of this important project. Should you have any questions, please call the City of Monterey Construction Management office at (831) 646-3997.
